Hanger Shims

Hanger Shims

For Fast and Accurate Assembly...

- Easy to fit/combine
- Not affected by damp, dry, rot or mould
- Inexpensive and timesaving to use
- Keep hanging in balance on screw
- Produces no toxic fumes in fires
- Produced in accordance with ISO 9001 : 2000

Hanger Shims for fast and correct mounting of doors and windows.

Hanger Shims can be clicked together to form a block in the desired thickness.

The Hanger Shims / assembled block is fitted over the screw and are designed to remain in balance over the screw.
- you just need to fasten the screws...

Hanger Shims are also perfect for mounting vertical claddings and roof battens.
